About

I consider myself to be a friendly and well-mannered introvert. Matriculating during the Covid Pandemic in 2020 has taught me discipline, hard work, and determination. My high school subjects included CAT (Computer Application Technology) which I enjoyed and lead me to pursue IT. In 2021 I attended Life Choices Coding Academy, where I completed a 6-month coding Bootcamp learning the fundamentals of IT. I continued my learning journey in the LC Studio. I am seeking an opportunity where I can apply my knowledge and grow my skills.

Work Experience

Web Developer Intern

LC Studio | September 2021 - 2022

Aspiring Web Developer, learning new frameworks and databases such as Node.js, Vue.js, PHP, MongoDB and PostgreSQL

- Write custom HTML, PHP, CSS, Vue.js, and JavaScript for websites and applications.
